EXECUTION NETWORK

Nerdy Network

The Private Execution Network for Gen Z Builders

Turning teenage builders into shipped products

01

The Problem

Gen Z is the most entrepreneurial generation — but they're building in broken environments.

50%
want to start a business

71%
interested in entrepreneurship

66%
started or plan a side hustle

- ✕ Discord servers where ideas die in endless chat threads
- ✕ Content platforms optimized for consumption, not execution
- ✕ Learning communities with no forcing function to ship
- ✕ School incubators designed for MBAs, not high schoolers

02

The Solution

Nerdy Network is the private execution system that turns builders into shipped products.

Accountability Mechanics

Public streaks force daily progress

Streak-Based Building

Visible progress maintains motivation

House System

Belonging and competition drive retention

AI Team Matching

Find compatible cofounders instantly

03

Product Architecture

1. **Invite-Only Pitch Rooms**
   Curated rooms where builders pitch to operators and accelerators

2. **Streak-Based Building**
   Public accountability with self-assigned deadlines

3. **Houses System**
   Belonging and competition drive retention

4. **AI Team Matching**
   Reduce founder friction with compatible cofounders

04

Why Now

Five converging forces make this the perfect moment:

Gen Z Entrepreneurship Explosion
50% want to start a business · 1 in 5 go straight from student to entrepreneur vs 3% of Boomers

Proven Demand for Teen Hackathons
MLH: 75% undergrad participation · Devpost: 163 countries · Mass builder movement

Death of Passive Communities
Buildspace: $10M raised, $100M valuation, 30K users — shut down Aug 2024

Accelerator Pipeline Gap
<2% YC acceptance · No systematic way to track builder velocity

Gamification Market
$40.2B in 2024 → $99.2B by 2032 · Duolingo proved streaks scale to billions

05

08

Competitive Landscape

Discord Communities
✗ No accountability, ideas die in threads
✓ Execution-driven with streaks & public progress

YC Startup School
✗ Built for company-stage, no team formation
✓ Teen-focused, gamified, AI matching

Buildspace
✗ Passive engagement, shutdown 2024
✓ Retention mechanics, multi-generational networks

Indie Hackers
✗ Revenue-focused, not teen-appropriate
✓ Execution-first, accelerator pipeline

Let's Build the Next Generation

The best founders start young. Most quit before they ship.

We're fixing that.

Execution-first
not content-first

Accountability-driven
not motivation-driven

Network effects
not broadcast media

Transparent reputation
not opaque applications

Join us in building the next generation of founders.
